

GLAZING

If there are any glazing issues please contact me in the first instance.

James Baxter: 07811 335040.

If you broke the window I suggest you use a company called Viewforth Glazing to repair the damage.

If the window was broken by burglars then the person to contact initially after the police is Bruce Stevenson the Insurance Brokers (see previous documents) to initiate a claim. Once the claim is logged then the tradesman to contact to fix the problem is Viewforth Glazing. They will give a quote which hopefully the insurance company will tell them to proceed with.

Viewforth Glazing does not have a key but they are just at the bottom of Viewforth and it might be possible for someone to drop a key off they on the way to work.

If viewforth glazing cannot help then the handyman Valeriy Borisenko will be able to sort it out.
